SRI R. GUNDU RAO.—A senior officer of the COD will be sent, spot enquiry will be made and a detailed report will be placed on the floor of the House well in time. I do not hesitate to do that in the interest of the poor people of the State.

Strike by student of Homoeopathic College at Belgaum

SRI B. B. SAYANAK.—Sir, there is a Homoeopathic Medical College at Belgaum run by the People's Education Society registered under the Co-operative Societies Act, 1960. It was registered on 13th December 1967 and the College is run since then. In this Homoeopathic College there are ninehundred students and nineteen professors. Thery were two strikes by the students and the professors in the year 1978 and 1979. The then Chief Minister Sri D. Devraj Urs had issued an Extraordinary Gazette. I may be permitted to read this to enable the House to understand the state of affairs of the Society. The Extraordinary Gazette reads as follows :

"Whereas the Peoples Education Society at Belgaum is a Society registered under the Karnataka Societies Registration Act, 1960 (Karnataka Act No. 17 of 1960) ;

Whereas the Registrar of Societies, Belgaum has reported that the said Society has not been functioning properly and is mismanaged in a much as:—

(i) it has failed to furnish income and expenditure Statement to the Registrar every year as required under Section 13 of the Societies Registration Act, 1960 from the date of its registration and the accounts for the year 1969-70 to 1977-78 have been furnished on 16th March 1979 after insisting upon by the Registrar of Socieities ;

(ii) its funds are misused and heavy expenditure has been incurred by the Chairman without the approval of the general body ;

(iii) its accounts have been kept in various banks in the name of the Chairman, People's Education Society, Belgaum, Dr. A M. Shaik. But its accounts have not been brought on the record of the Society ;

(iv) it has failed to file the statements and returns to the Registrar of Societies since its inception as required under the Act ;

(v) it has incurred the expenditure all these years without observing the normal rules and some of the omissions and commissions in respect of accounts matters as well as constitut on and working of the Society amount to gross negligence of the purpose for which the Society has been established ;

(vi) its affairs are not being properly managed in accordance with the rules and regulations of the said Society and the mismanagement of the in titution has resulted in strike by the students and the staff ;

Whereas on considering the said report, the Government of Karnataka is satisfied that the said Society is mismanaged and is functioning in a manner contrary to and utterly inconsistent with its objects, memorandum, rules and also with the provisions of the said Act ;

Whereas in the circumstances, the Government of Karnataka considers it necessary in public interest to appoint Administrator to the said Society ;

Now therefore, in exercise of the powers conferred by Section 27-A of the Karnataka Socieities Registration Act, 1960 (Karnataka Act No. 17 of 1960), the Government of Karnataka hereby with immediate effect appoints the Divisional Commissioner, Belgaum Division, Belgaum as Administrator of the People's Education Society, Belgaum for a period of six months or till such time as normalcy in administration is restored and the administration is re-handed over to the Society by the Divisional Commissioner, Belgaum whichever is earlier."

The then Chief Minister Sri Devaraj Urs appointed the Divisional Commissioner Sri Balagopalan as the Administrator. The Chairman of the Society Sri Shaikh went to the High Court and on some technical mistake the High Court quashed the order and again he got the powers. From November onwards the Chairman of the Society has removed four professors and the strike started in 1979 Sri Shaikh called a meeting of the Citizens of Belgaum on 1st December 1979 and I was also invited to that meeting. During the meeting, Dr. A. M. Shaikh Put forth his case ; we asked the professor to putforth his case. I suggested that a Citizens Committee of five members be appointed consisting of the Chairman of the Indian Medical Association Dr. Pusalkar, Dr. A.G. Yalgi, Sri B B. Savanak, MLA, Sri N.A. Hanumannanavar, the then Chairman of the City Improvement Board and Sri Bandookwala. My suggestion was accepted and a Committee consisting of the above five members was formed. I asked

Sri Shaik, Chairman of the People's Education Society as to whether he is going to accept the decision of this Committee. He said that he will convene a meeting of the Governing Council about this. Then I asked the Professor whether they will accept the decisions of the Citizens Committee they gave their consent After fifteen days the Chairman of the People Education Society wrote a letter to me stating that since there was no quorum of the Governing Council members no meeting was held.

He has removed 8 professors. If there is no governing council meeting, how has he removed 8 professors ? Then, for this reason, the students have gone on strike. Immediately after that, I have raised this issue in the Assembly in the form of Calling Attention Motion. The Health Minister Sri A.K. Samad has told me that he will discuss this issue with the students and the managment and he informed me that I will also be invited. He has not invited me. I have no objection for that, but, whom he has invited is the point here. He has invited two persons who have nothing to do with this College and his cases. They have formed a Committee under the Chairmanship of the Deputy Commissioner of Belgaum. Two members from management, Shri A.M. Shaik and Dr. Bhomaj and two from students and Director of Homoeopathic College as its Convenor. Sir, the Deputy Commissioner of Belgaum has convened the meeting on 10th April. At that time Sri Shaikh had taken objection stating that there is no G O. regarding the Constitution of the Committee. The meeting was adjourned and again the Deputy Commissioner had convened the meeting on 13th. At that time the G.O. was issued and on the management side all the persons were not present. The Chairman was present, students representatives were present, but Sri Shaikh and Bommaja were not present. The Committee took a decision and forwarded the same to Minister. After that, I asked the Hon. Minister for health, where was the necessity to call meeting in his Chamber ? When the management side has not intentionally attended the meeting on 13th, why have you not taken a decision immediately to take over the College ? The meeting was attended by Sri Takked and Sri B.B. Patil, but these hon. Members have nothing to do with this Committee formed by the Government and they are in no way connected with it. And why the hon. Members did not attend the meeting on 13th when Sri Shaik had not attended the same ? It is your bounden duty to take the decision. Why you have not taken any decision some people will say that this is a minority institution because Sri Sheik is a Mohamadan. I have no grudge against the Muslim community. If it is a minority institution, it must be proved that it is a minority institution, but it has not been proved. I would like to

say that Sri Sheikh the Chairman is acting unreasonably, arbitrarily, unlawfully and as a dictator. He is thinking that the College is his personal property. For the last 8 months, the strike is going on by 900 students and all the professors. The capitation fee is Rs. 15,000 for a degree course and Rs. 10,000 for a diploma course. What are the demands of the students ? They demand Hospital, Library, Laboratory and other facilities and protection to the ladies hostel. Sir, recently Sri Shaik has purchased one hotel called 'Nataraj' worth Rs. 4 lakhs, but he has not constructed a hospital for students. What is the use ? He is a massing wealth like anything. He is not doing justice to the students. The professors are working from the very beginning of the institution. They are getting only Rs. 250/ per month. They have been appointed only for a period of six months and afterwards they will be te minated. He has terminated 19 professors. Is this the way of conducting a Homoeopathy medical college ? Because of this type of management, there is unrest in the student world. The Government must think twice and take proper action in this regard. When Sri Devaraj Urs took a decision, Sri Gundu Rao was also there in the Cabinet. There was some loophole and now you please remove that loophole and take over this college. This Shaik is head strong and stubborn. Nobody can challenge him. Therefore, I want the intervention of the Chief Minister and take over this college immediately and appoint an administrator so that there will be calm atmosphere in Belgaum. So many students have been arrested and cases have been filed against them under Section 306-attempt to murder. It is high time, the Hon. Chief Minister should intervene and take correct stand. Otherwise, the whole Belgaum will be behind the Homoeopathic college. Don't think that this is a simple thing. This is head-ache to the entire Belgaum City. I request again the Hon. Chief Minister to take immediate steps.

† SRI A. K. ABDUL SAMAD(Hon Minister for Health).—Sir, I wish to make the following statement.

The Homoeopathic Medical College, Belgaum in run by the People's Education Society, Belgaum which has been registered under Societies Registration Act on 13-12-1967. The Chairman of the People's Education Society is Dr. A. M. Shaik, who is one of the founder-members of the Institution and a qualified Homoeopath. In early February 1980 the students of the Homoeopathic Medical College Belgaum went on strike to press for their various demands for improvement of the institution. Consequently the college was closed by the Management with effect from 8-2-1980. The help resolve the dispute and create conditions for the early reopening of the college, a meeting was convened in the chambers of Hon. Health

Minister on 17-3-1980, in which the representatives of the Management and the students participated. In the light of these discussions it was decided to constitute a tripartite committee consisting of representatives of Government, the Management and the students of the Homoeopathic Medical College, Belgaum to look into and resolve the pending grieances of the students. This ad-hoc committee which was set up on the 1st may 1980, with the consent of all concerned, consists of the following members.

(1)	Deputy Commissioner, Belgaum Dist. Belgaum	Chairman
(2)	Dr. A. M. Shaikh, Chairman, People's Education Society, Belgaum	Member
(3)	Dr. S. D. Bhomaj, Member of the Governing Council, People's Education Society, Belgaum.	Member
(4)	Shri Chadrahas D. Okorpade, C/o Dr. Koti Buildings Gandhi Road, Belgaum (Student's Representative)	Member
(5)	Shri Gautum B. Karwadikar, (Students Representative)	Member
(6)	The Director of Indian Systems of Medicine and Homoeopathy, Bangalore or her nominee.	Convenor

The terms of reference of the committee are to review the action taken to resolve the legitimate grievances of the students, as expressed in the charter of demands formed by them in February 1979 and again in February 1980 and to decide such further measures as may be necessary in this regard. In particular the committee will take suitable action to ensure that.

(i) the requisite library facilities and laboratory equipments are procured and qualified teaching staff recruited to fill up the vacancies, within a period of two months; and

(ii) suitable buildings for the college and also for the boys and girls, hostels are provided within a period of one year.

The Committee will also review the disciplinary proceedings initiated against the students and the staff.

It is hoped that the establishment of such a Committee with clear-out objectives would enable both sides to come together in a spirit of cooperation and compromise and find an amicable solution to all genuine points of contention, under the advice and guidance of the Deputy Commissioner. Belgaum.

The Committee has since met both at Belgaum and at Bangalore and initiated action to sort out the outstanding problems as above. Steps have also been taken to have the College reopened. However, it appears that a small section of the students, together with some members of the staff who were recently dismissed from the College, are continuing to agitate and prevent the College from functioning normally. Certain cases may therefore have been registered against them by the local police. It also appears that the professors whose services were terminated have approached the Civil Court for re-instatement, Goverument expect that law will take its own course in respect of both these sets of cases.

Sir, the Hon. Member Sri B. B. Sayanak has raised certain points The students have unanimously decided the name of Sri Shaik and Hafiz persons when I met them at Belgaum. In respect of taking over this College, it is not within our purview because this College is registered under the Societies Registration Act. If there are irregularities including mismanagement and non-filing of statement etc,. it comes under the purview of the Revenue Department. This institution is registered not under the Co-operatives Act. but under the Societies Act. Any action to be initiated is not from the Ministry of Health, but from the Revenue Department.

SRI. B. B. SAYANAK.—It is not only registered under the Societie Act, but also under the Bombay Trust Act. He is a very wise man.

SRI A. K. A. SAMAD.—Any action that has to be initiated has to be done by the Revenue Department. If a report comes to that effect, let the concerned Ministry initiate action In respect of facilities, except that of taking over the institution, we have made arrangements and Deputy Commissioner is in charge of it. It is practically run by the Government and for the recruitment of professors action has already been taken to advertise in all India Press to see that they attract good teachers, and the Director of Indian Medicines will monitor this. In respect of construction of hospital, Rs. 18 lakhs worth of construction works has already been started and further progress is held up for want of cement. I have already asked the Deputy Commissioner to see that the cement supply is made on adhoc basis. With regard to other demands, such as, books, laboratory etc., the Deputy Commissioner, has already initiated the action. Should our Hon. Members require that I have to review this I will not hesitate to call a meeting and do the needful in the matter. Another thing is that the Hon. Member Sri Sayanak said that I attended this meeting that was convened.....

SRI B. B. SAYANAK.—On 17th you have called a meeting at Bangalore. Prior to that there was a meeting at Belgaum for which the management was intentionally absent. At that time itself you could have taken a decision.

SRI A. K. A. SAMAD.—Natural justice demand that we have to give reasonable time and opportunities. I hope that our friends will agree with me. Merely because the management did not attend the meeting for the first time, it doesn't mean that I have to throw them out. The management and the students should go together in a calm atmosphere I requested the Deputy Commissioner to see that the things should be done within a short period of time. Mr. Patil is not a Member, yes. But he is the person who has to sign on the cheque book. He did not participate in the discussion in my chamber, but he had come to perform his duties *i. e.*, for signing on the cheque book, for ordering equipments, books etc. But, the students said that the list of books will be given in Belgaum. Otherwise, he could have signed and handed over it to the Deputy Commissioner.

SRI A. LAKSHMI SAGAR.—Sir, the entire thing has already been expressed by my friend Sri Sayanak But I would like to emphasis one point It appears from the discussion that Dr. Shaik appears to be a person responsible for the entire thing which has ultimately lead to the closure of the institution and the agitation by the students and also professors of the College. This is the main point, if I may say so, you must look into the matter seriously and see that the Institution survives ; but not the individual. He may be a founder Member, but he was it appears responsible for the various items of mismanagements, misuse of funds, falsification of accounts and other a number of irregularities. The notification appointing the administrator was quashed by the High Court of Karnataka it is a different issue But, I request the Hon. Health Minister to apply his mind seriously and solve the problem. This man appears to be a king-pin for all that happened and the Government must seriously bear this matter in mind in resolving the controversy, that has now arisen which has ultimately lead to the closure of the institution and also dismissal of a number of professors. Therefore, I request the Hon. Minister to consider this aspect of the matter of the desirability of retaining or removing Sri Shaik as per rules. He appears to be the stumbling block in the administration. So, the Homoeopathy requires your sympathy our sympathy and everybody's sympathy and students, professors, and institution should not suffer.

11-00 A.M.

SRI B. B. SAYANAK. — Since 1967 this Institution is there. According to the Societies Act, every year there should be a general body meeting. He has not convened the meeting of the general body.

SRI A. K. ABDUL SAMAD.—Mr. Speaker Sir, the hon. Member Sri A Lakshmi Sagar has raised certain important points. Merely because Sri Shaik is the founder-member of this Institution, we should not give undue advantage, and allow him the liberty of killing this Institution I agree with him. Now that we have formed a committee and the Deputy Commissioner is the person who holds the entire charge and I understand from a reliable source that Sri Shaik is likely to go on long leave very shortly, a congenial atdmosphere might prevail. I appeal, with the good offices of our Honourable Members that the students withdraw their strike and a congenial atmosphere be brought in that area. Let the examinations which were due now during this month, be over. Then the Institution will really come up.

SRI A. LAKSHMI SAGAR.—That is the crucial point. Normalcy should be restored. I should like the Hon. Minister to assure this House that all the Professors, who have now been removed from the Institution, must be taken back. Secondly, cases registered against the Professors and the students must also be w th drawn. According to the Minister, Mr. Shaik is likely to go on long leave. That doesn't solve the problem. At last the matter is in the hands of the Deputy Commissioner and vir tua'y he would be in-charge in the management if I may say so. Therefore, normalcy should be return as soon as possible, perhaps earlier than later. Therefore, these are the necessary things for eventual restoration of normalcy. Cases now pending in Criminal Courts against the Professors must be withdrawn. Secondly the Professors must be taken back to duty. Other things would take their own course. This is the assurance that I want from the Minister.

SRI A. K. ABDUL SAMAD. —Mr. Speaker Sir, regarding the withdrawal of cases that have been initiated against these students and others I will certainly use my good offices to see that the cases are withdrawn. Secondly, in regard to the Professors who have been removed by the management of the Society just I told you that there is an advertisement going on wherein Lecturers based on their qualifications will be called for. If they are fit, they will be taken back.

SRI A. LAKSHMI SAGAR. —This will not solve the problem.

SRI P.A. PAWASHE.—Sir, I rise on a point of order. Sri Takked has been allowed to speak only with regard to the reference made by Sri Sayanak in his speech. He is entitled to answer only to that part of allegation. He cannot go on speaking on other matters.

SRI RAMESH KUMAR.—I heard the hon. Minister's statement very attentively. A very valid point has been raised by Sri A. Lakshmisagar with regard to the cases launched against the students and also the fate of the terminated professors I welcome the statement of the Hon. Minister for making a reference with regard to the students. But, while making a reference about the fate of the terminated professors, he said an advertisement has been made calling for the fresh applications, the terminated professors are also eligible to apply and they will be given a chance. Why should they create such an apprehension in the minds of the professors ? They are afraid of dictatorial attitude of Sri Shaikh and that is why the matter has come before the House. Therefore, I appeal to the Hon. Minister for Health and also the Government, through you, let not the Government express its helplessness. We expect the Hon. Minister to give us a clear assurance with regard to the fate of these terminated professors.

SRI B.B. SAYANAK.—I wish the Hon. Chief Minister to intervene in the matter and assure the House for reinstatement of these terminated professors. There is no solution other than this.

SRI R. GUNDU RAO.—Just now, the Minister has explained to you in detail. I think he has satisfied all the members by his detailed statement.

SOME HON. MEMBERS.—Partly !

SRI A. LAKSHMISAGAR.—It is a good thing that the question of withdrawing the cases pending against the professors and the students will be considered carefully. But, with regard to the appointment of terminated professors, what is the necessity to call for fresh applications. It is one of the issues in the agitation that the professors have been removed on the ground that they instigated the students to go on strike which ultimately led to the closure of the Institution. Therefore, the question of reinstatement of these professors is an integral part of a solution to this problem. Please, take them back. Subsequently, you may take disciplinary action as required under the rules. This will certainly help to find a solution to the stalemate. I am also a professor and if, I am removed, I will take all necessary steps for protection in my interest including the one now that is going on.

SRI A. K. ABDUL SAMAD.—Sir, already we have released the advertisement. Now, what I can do is that we can ask the Deputy Commissioner, who is the Chairman of this committee to convene a meeting urgently and see what best can be done.

SOME HON. MEMBERS.—Withdraw the advertisement !

SRI R. GUNDU RAO.—I just discussed this with the hon. Minister for Health. The Institution is a private one So many legal aspects are involved for taking over the management of the said Institution by the Government. I am also told that even the professors have filed cases in the Civil Court regarding their termination.

SRI B.B. SAYANAK.—They will withdraw the cases.

SRI R. GUNDU RAO.—Let them withdraw those petitions and then definitely the Government will use its good offices to see that they will be taken back.
